

MEET MRS. REGER

THE BASICS

I am so excited to be your 3rd grade teacher this year (my 25th year teaching). I have taught all grades, kindergarten through eighth, in general education, special education, and even as a PE specialist. I have two daughters, Malaia (11th grade- former Red Hawk, current Ayala Bull Dog) and Delilah (7th grade, former Red Hawk, current Canyon Hills Coyote). Mr. Reger and I met teaching kindergarten in adjacent classrooms way back in 1999! Now he is the Assistant Principal at E.J. Marshall Elementary School. We have a Yorkie named Allie and a horse named George. My favorite classroom activity is hatching chicks in the spring. We are going to have so much fun together this year!

EDUCATION

Bachelor's of Science Degree:

State University of NY at Geneseo, Public Honors College

Double Major: Elementary & Special Education

Concentration: Natural Sciences

Master's of Science Degree:

Cal State Fullerton: Education with a focus in Special Education

MY CHILDHOOD

I grew up in Oxford, NY, a small rural farm town in the central part of New York State. I graduated with only 80 students from the same public high school my parents, aunts, uncles, cousins and grandparents graduated from!

We go back to Oxford during our Christmas and summer breaks. While there, Malaia and Delilah enjoy the same activities I did as a child: camping, fishing, hiking, visiting the farm, picking berries, playing with cousins, and snow activities during the winter.

My hometown: Oxford, NY
