

VIRTUAL COLLEGE EXPO

Students and families of Chino Valley Unified School District, we hope our effort to take our Annual College Fair virtual this year provides you with an opportunity to visit as many of the colleges and post-secondary options as possible while staying safe. Because many of these presentations are pre-recorded, we will keep the links available for as long as the host organizations have them on their sites. For those sessions that will be live-streamed, please note the registration links, dates, and times. If you have any questions or need more information please contact your Career Center Guidance Technician at your high school.
