

Welcome to Duolingo

1. What is Duolingo?

Duolingo is a research based language learning app that helps people learn a new language. It offers small bite sized lessons that teach real world communication skills. Adults and children can benefit from using Duolingo!

2. How much does it cost?

Duolingo is FREE!

3. How do I create an account?

You can create your own account with an email address, or your teacher can create one for you. All you will need is a username and password.

4. Where can I practice?

You can access Duolingo online or from a mobile device. You can download the Duolingo app on your smartphone or tablet.

5. How does it work?

Duolingo lessons are set up to feel like a game while you advance through lessons and skills. It helps you practice reading, writing, and listening from the very first lesson. Duolingo lessons adapt the level of difficulty based on your progress so that you practice at the level right for you.
