

By Isaac Omar Chavez/Diaz

Guess who's birthday it is? Me, 我, mij, moi, mich, μου, ia'u, liom, 自分, ja, meu, мне, a mi, etc, etc, etc. Yeah. April 26th, to be exact. And, APRIL FOOLZ!!! There's actually gonna be TWO editions here. One for my birthday, and one for April itself. Now, this is one of the only times Rhodette is something else COMPLETELY. This is Rhodette's "Fool in April" skin. Usually, Rhodette's only wearing a different color strap and/or hat. But this month, she's a light cyan, with a tattered strap, calculator eyes, and a "dunce" hat. By the way, YES. There is a little thingy-thing about the month, blah, blah, beep boo jargon gobbledygook. ALSO. I bet you've seen the 6, yes SIX, I didn't miscount, "mascots" here, correct? Only one's too small to see. More on these later. Okay, that's everything. So get comfy with some popcorn and a soda, cuz this'll be a (moderately) long one! GO!

EDITION: APRIL

Month of Fauna: The Pokemon: The Section

OAK-ay. THISTLE be a section you'll remember. Anyway, April is the beginning of spring. So here's a few Pokemon related to that. I think this'll be very in-TREE-guing. Alright. It's THYME.

Lotad

This lily pad man lives in ponds and lakes, where the water is coolest. On rare occasions, this little guy travels in search of clean water. He's a very FUNGUY.

Grass Water

Vileplume

Yeah, yeah, yeah. Get all your "Kirby infested with fungus" jokes out NOW. This thing is SO MUCH MORE. This is one of the split

evolutions of Gloom, which if you wanna see, GET OUT AND RESEARCH IT! This ain't foyou.

Grass Poison

Dipplin

Okay. We're talking about the BEST POKEMON EVER SINCE SLICED BREAD. This is a Dipplin. (What is a Dipplin?) Well, it's two thingies in ONE Pokemon. I'm the biggest fan of this Pokemon. (How is it Grass related?) It's a split evolution of Applin, which is a Grass type. Applin can evolve into Flapple or Appletun. If it evolves into Dipplin, it will later evolve into Hydrapple.

Grass Dragon

I chooz u.

“Scholaring Up: Math”

Volume is the space of a 3-dimensional shape.

“Scholaring Up: Trends”

Isohappy, ilokaipop

“Animal, Animal?”

Satanic leaf-tailed gecko

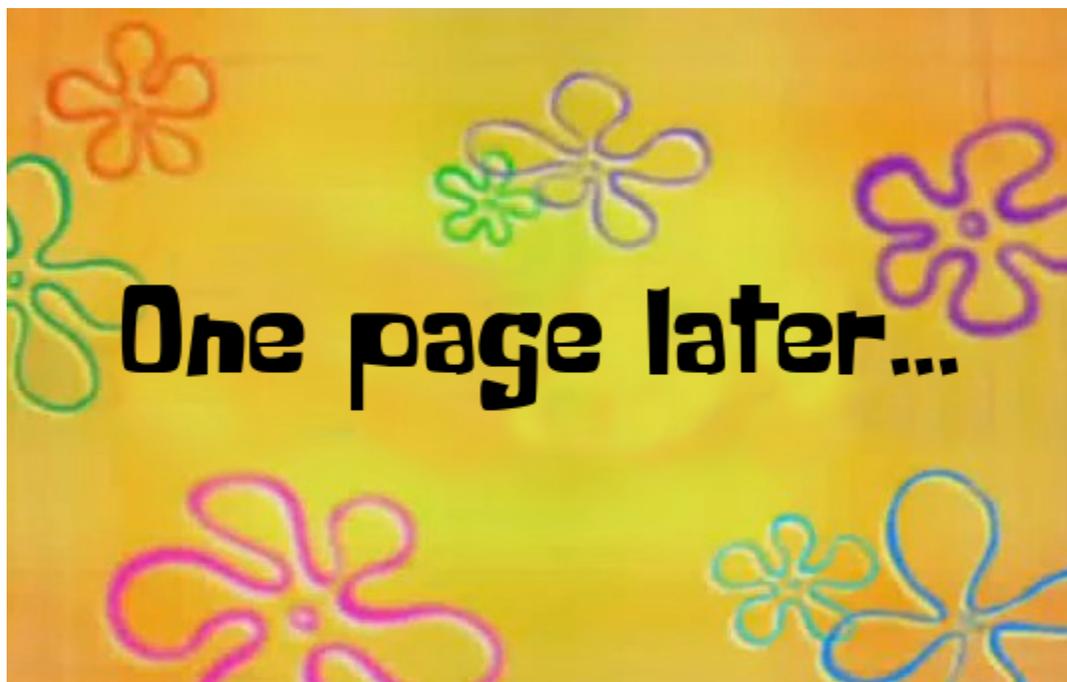

They have a pattern to mimic a dead or decaying leaf. (death and decay, death and decay) They also use their long tongue to wipe dust and debris off their eyes. (dust and debris, dust and debris)

“Historical Inspiration”

“If I be not in a state of grace, I pray God place me in it; if I be in it, may God keep me so.”

- Joan of Arc

No comic strips this month!

HALF OF A Rhode Special

Love The Planet

This *Half of A Rhode Special* features Earth Day.

EDITION: B-DAY

“Scholaring Up: ELA”

Interjection

An interjection is something you yell.

“Historical Inspiration”

“Our doubts are traitors, And make us lose the good we oft might win,
By fearing to attempt.”

- William Shakespeare

HALF OF A
Rhode Special

Meet My Mascots!

This *RhodeSpecial* features my mascots.

This is 英, or Ying. He’s very optimistic and open minded.
He is 13 and is actually a cloud. Weird, but ok. He’s allergic to yarn.

Ying is named after the Chinese symbol, Yin. The other part of the symbol is next.

This is Yang, named after the Chinese symbol, Yang. He's practical and conceited. He is half demon. Huh. So that'd explain why he's 2,149 years old. He turns 2,150, uh... on May 1! Oh.

This is Clast, who is named after rock clast. Its name is an abbreviation of Cosmic Light And Super Trumpets. Yeah, it's dumb.

This is Frisker P. Thistle. She is a... uh... plant. She's named after the Undertale character, Frisk. "Why?" you say!?! Because I like Undertale. She has loooooooooong cactus legs. Spiky, so NO TOUCHY.

This is Cheeto. He don't care what type of Cheeto he ehtz. Even if it's doez xtra spicy ones. Interestingly, his tongue is resistant to heat.

Okay, I'm out. I ain't doin' that "thanks for reading" thing. I'm done.
(snore)

So what happens after we eat 'em?
