

Dear Parents and Guardians,

I hope this letter finds you well. At Glenmeade Elementary, we are committed to providing the best possible educational experience for all our students. To support this mission, I am excited to implement an academic intervention program focused on enhancing reading and/or math skills for elementary students.

What is the Academic Intervention Program?

Our academic intervention program is designed to identify students who may benefit from additional support in reading and/or math. Through targeted instruction and small group activities, I aim to help students strengthen their skills and build confidence.

Why is This Important?

Early intervention is key to ensuring that students develop a strong foundation in literacy and numeracy. By addressing challenges early on, we can better prepare our students for future academic success.

How Will This Work?

- **Assessment:** Students will be assessed to identify specific areas where they may need additional support.
- **Tailored Instruction:** Based on assessment results, students will receive targeted instruction in a small group setting.
- **Progress Monitoring:** I will regularly monitor student progress and adjust interventions as needed to ensure effectiveness.

What Can You Do?

Your involvement is crucial! Here are a few ways you can support your child:

- Encourage daily reading and math practice at home.
- Communicate with teachers about your child's progress and any concerns you may have.
- Attend parent-teacher conferences and workshops to learn more about how you can help.

I believe that with the right support, every student can thrive. If you have any questions or would like more information about the academic intervention program, please check out my class page on our school's website.

Thank you for your continued support in your child's education. Together, we can help our students reach their full potential!

Warm regards,

Vivi Lane
