#Selfie

hi

#welcome to sixth

This is my 26<sup>th</sup> year teaching in the CVUSD. 22 of those years have been spent in sixth grade. I began teaching at Cal Aero the year it opened and have enjoyed my time here. This year is going to be an adventure and I am looking forward to all of the learning that will happen. One of my favorite sayings - "Be comfortable being uncomfortable" Remember this as we begin your last year in elementary school. Always keep an open mind and don't be afraid to try new things. We will have a great year in sixth grade!
