Parents,

Please join us in November for the engaging topic of **SOCIAL EMOTIONAL LEARNING!** Some questions to ponder and discuss with us:

- Is SEL a new educational trend or is it even new at all?
- What does this new instruction mean for my child's learning?
- What is emotional intelligence? Are you going to teach my children social skills as well? Isn't that my role as a parent?
- Are there social-emotional apps for special needs students, that we can use at home?

Join us on November 16th with our guest presenter, to learn more about SEL and how it impacts your child's education.
