

Computer Use at BRHS

I understand that computer use at Boys Republic High School is a privilege and that computers are for educational use only. My computer privileges may be revoked at any time by the classroom teacher, administration, or cottage staff.

I understand that part of my program at BR is to make conventional changes. Therefore, I will not venture into websites that contain information that may glorify gang activity, racism, drug use, or violence.

Sites that I **may not** visit include the following:

- Social Media – any social media including Instagram, Facebook, etc.
- Communication websites – email accounts, texting, etc.
- Shopping websites
- Music websites
- Images sites
- Map sites
- Sites disallowed by teacher

I also **may not**:

- Listen to music
- Watch noneducational videos
- Download files or apps
- Use apps designed to get around the firewall in order to access blocked sites

If I violate these guidelines, then I know that I will lose the privilege either temporarily or permanently. This may include:

- Short term completion of pencil/paper assignments
- 30-day computer suspension
- Computer suspension until a pencil/paper packet is completed

If I have questions, I will ask beforehand. I know that my use of the computer is at the teacher's discretion.
