2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

Woodcrest is committed to providing a safe and supportive educational environment where students, parents, and staff work as a collaborative team. We continue to use a systematic practice to increase student excellence. Woodcrest Junior High School is a 7-time Microsoft Showcase School, 2-time Educational Results Partnership “Honor Roll School”, 4-time California PBIS Coalition Silver Award recipient for PBIS Implementation, 2-time California PBIS Coalition Gold Award recipient for PBIS Implementation, 3-time California PBIS Coalition Platinum Award recipient for PBIS Implementation, a Solution Tree Model PLC School, and became a California Distinguished School in 2024.

2024-25 School Description and Mission Statement

High standards in curriculum, technology integration, and personal behavior are at the forefront of instruction and goal setting for the Woodcrest staff and students. As a Microsoft Showcase School, Woodcrest is utilizing technology, high teaching standards, and rigorous curriculum to increase the number of students meeting or exceeding the standards on the yearly standardized tests in Math, English, and Science. Progress on goals is monitored three times a year using the district constructed Essential Standards Assessments. Data from the local assessments is gathered, disaggregated, and disseminated to the staff. The staff then utilizes the PLC process to discuss best practices, re-engage students using multiple strategies aimed at bridging gaps, extending learning, and reinforcing previously acquired information.

Woodcrest's vision is based on building meaningful relationships with students and families, delivering rigorous curriculum tailored so all students can be successful, and using relevant resources to stimulate multiple learning styles. With academic, social, and emotional development at the forefront, all students will feel supported and confident to continue their passion for learning. We are united in our purpose to create and cultivate life-long learners who will make a positive impact on the community we serve.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

On September 19, 2024, the Chino Valley Unified School District's (CVUSD) Board of Education held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Board of Education adopted Resolution 2024/2025-21 which certifies as required by Education Code 60119 that (1) sufficient textbooks and instructional materials have been provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and context of the curriculum frameworks in the following subjects: history/social science, mathematics, reading/language arts, and science, (2) sufficient textbooks or instructional materials were provided to each pupil enrolled in a foreign language and/or health classes, (3) laboratory equipment was available for science laboratory classes offered in grades 9-12, inclusive. Textbooks and instructional materials are provided for each student for use in class and to take home. It was determined that each pupil in each school has sufficient textbooks and instructional materials that are aligned to the academic content standards in the core subject areas for the 2024/2025 school year. Additionally, sufficient textbooks and/or instructional materials were provided to each pupil for visual and performing arts.

*Please note: In reference to materials not from a most recent State Board Adoption (SBE): In November 2017, the California State Board of Education approved a list of History/Social Science and Science programs for districts to consider for their new adoption. CVUSD elected to continue to use current District adopted materials while further studying program options provided on the SBE list to consider for a future piloting process. CVUSD reviewed current District adopted materials and determined that they meet current History/Social Science and Science standards.

School Facility Conditions and Planned Improvements

Chino Valley Unified School District (CVUSD) makes it a priority to maintain safe, clean, and effective school sites for our students, staff, and parents. The safety of students is of paramount importance to CVUSD. In the morning, staff supervision is provided to watch the cafeteria, entrance gates, and school grounds. During lunch and recess times, noon ground supervisors and teachers monitor students to ensure students interact safely. At the end of the school day, staff supervises student dismissal. The staff and student workspaces for this site are cleaned on a regular basis by the school site custodial staff. In addition to regular cleanings, deep cleanings are scheduled and carried out during breaks and vacation periods. The school facility is adequate and has sufficient classrooms, playgrounds, and staff spaces in order to operate efficiently. A recently completed school improvement for this site is the gymnasium wall pads were replaced with new pads. The gymnasium floor was screened and refinished. Select buildings were reroofed. Schoolwide HVAC units are scheduled for replacement.

To ensure sites are clean, safe, and functional, Maintenance and Operations department staff conduct inspections at the school sites on a continual basis. School sites may also enter maintenance requests by accessing the School Dude system. After the school site request is entered into the system, a work order is generated, and the Maintenance staff works diligently to complete all work orders in a timely manner. The Maintenance team utilized the Facility Inspection Tool (FIT), a survey instrument developed by the State of California Office of Public School Construction (OPSC), to record inspection results. The District's inspection took place from November 6, 2024 through November 19, 2024, the overall rating of this site's most recent survey is GOOD, and any associated repairs were completed on or before December 30, 2024.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

The Woodcrest staff actively encourages a high level of involvement from all educational partners. A variety of committees are in place, including School Site Council (SSC), Positive Behavior Intervention and Supports Tier 1 Team, English Learner Advisory Committee (ELAC), School Site Safety Committee, and the District Advisory Committee. Beyond those committees we offer Parent programs that are geared toward teaching parents how to be involved in their students' academic and social lives as well as opportunities for parents to meet with administration to discuss varying topics. Parents can connect with the office staff at (909)923-3455 to sign up for a parent group, gather information about Parent Programs, or get other desired information. Woodcrest's Office Staff speaks multiple languages and can help all educational partners engage in the school community. Educational Partners can also visit our website at <https://www.chino.k12.ca.us/Woodcrest> and/or follow us on Instagram at Woodcrest_wolverines.

2024-25 School Safety Plan

Each school has a detailed School Site Safety Plan for emergencies that is annually reviewed, updated, and discussed by the School Site Council. The date on which the School Site Safety Plan was last annually reviewed was February 2024, and the plans are reviewed monthly by the School Site Council. Each staff member is assigned a specific responsibility in the event of

2024-25 School Safety Plan

an emergency. Staff members are trained in the plan's components and procedures. Fire, earthquake, and intruder drills are held on a regular basis so that all students and staff are familiar with emergency procedures. Emergency supplies are located on each campus in the event of an emergency.

Assigned staff monitors school grounds daily before, during, and after school. The District policy regarding campus visitors is enforced by requiring everyone to check in at the school office and obtain a visitor's badge. A visitor sign-in log is located in the school office and all visitors must sign in before going onto the campus. In addition, all visitors must wear an identifying badge while on campus. To increase security, all gates remain locked during the school day, so visitors must enter campus through the school office.

The Chino Valley Unified School District is committed to providing an environment that fosters health and safety, in both form and function. This commitment extends to the process of developing and maintaining a comprehensive Emergency and Disaster Preparedness Plan as a part of the District's Safe Schools Plan and is evident from the individual site to the overall District. These plans delineate actions to protect all students while they are at school. The plans are designed with the help of security staff members, local law enforcement, local fire, and emergency management, and public health officials as required by Education Code 32280-32282.

Plans are reviewed and updated yearly in accordance with Education Code 32286. These plans include procedures to respond to critical incidents, such as fire, earthquake, or intruders. School personnel practice these drills regularly.

The primary purpose of the Chino Valley Unified School District Emergency and Disaster Preparedness Plan is to define roles and responsibilities at the site and between the site and district office management. The Emergency and Disaster Preparedness Plan establishes the minimum requirements for school and site plans throughout the District. This Plan meets the requirements of the Standardized Emergency Management System (SEMS) as mandated by California Code of Regulations, Sections 2400-2450, and the National Incident Management System (NIMS) as mandated by Government Code 8607. It also meets the requirements for earthquake preparedness found in Title 5 (California State Education Code, Sections 35295-35297).

Professional Development

The Chino Valley Unified School District is committed to high-quality Professional Learning to support the instructional capacity of teachers and leaders. Professional learning opportunities are aligned to the Essential Standards, Positive School Culture; Timeline Feedback on Formative Assessments; Collaboration Strategies for Students; Integration of Technology and Use of Digital Tools; Accessing, Processing, and Analyzing Data; and Professional Learning Communities.

For the 2024-25 school year, the Areas of Emphasis are Student Engagement through Collaborative Communication and Professional Learning Communities. Student Engagement through Collaborative Communication includes preparing to engage, listening, engaging, and responding, and self-reflection. Professional Learning Communities address the following 4 description questions/student observables: (1) What do we want all students to learn?/Students are aware of the essential standards/learning targets/success criteria (2) How do we know if the students are learning it?/Students use rubrics, reflection sheets, success criteria, to self-assess their learning, and students are provided the opportunity to demonstrate the mastery of their learning through multiple opportunities (3) What will we do if the students are not learning it?/Students participate in differentiated instruction based on not meeting the learning targets (i.e. small group, individual) (4) What will we do when students have learned it?/Students participate in extension based on the mastery of learning targets.

Professional learning opportunities are evaluated through survey results, feedback, and next steps from end-users.

Professional learning opportunities are varied in its delivery: district-wide days during school hours, after-school workshops, site-based PD offerings, and volunteer sessions. Implementation for learning is supported through Site-Based PD from Site Administrators and coaching opportunities from Instructional Coaches. Additionally, professional development is provided for new special education teachers covering areas such as compliance, development of Individualized Education Programs (IEPs), classroom management, and effective instructional strategies. The Special Education Department supports school site staff with Crisis Prevention Intervention (CPI) training regularly as well as options for trainings in areas such as Universal Design for Learning, Collaboration and Coteaching, Writing IEPs for Educational Benefit, and Special Education Training for Administrators. The Chino Valley Teacher Induction Program provides initial and on-going mentor training to its large quantity of in-house teacher-mentors and limited structured professional development for its induction teacher candidates. All mentors are provided with New Mentor training, followed by monthly mentor targeted support meetings. These mentor meetings provide coaching support for mentors to address local needs and are organized around supporting new teachers regarding equity, social-emotional learning, promoting teacher self-awareness, providing positive behavioral supports for students, multi-tiered systems of support for students, and universal design for learning. Induction candidates are provided with three hours of targeted program support, fifteen hours of required self-selected professional development, and weekly, one-hour, mentor-facilitated opportunities for individual support with a focus on setting professional goals and offering structured feedback and coaching as part of their induction program.
