School Counseling Program

School counseling program is to enable all students to experience educational success by providing academic, career and personal and social development. Counselors are dedicated to helping students overcome barriers to learning. Counselors advocate for an environment that supports all students, helping them realize their full potential along with a balanced high school experience.

Counselors develop and implement a comprehensive program that:

- Encourages all students to develop a high school and post-secondary education plan based on their own interests, talents and skills.
- Provides career awareness through guidance lessons and career inventories.
- Supports students to become active learners, responsible citizens and productive members of a global workforce.

***Please check Dr. B's "The Week Ahead" announcements via Aeries ParentSquare or follow our Counseling Department on Instagram: @CHHSCounselors to stay up to date on current information.*
