

## AVID Elementary at Anna Borba

As an AVID elementary school, we teach our students to become academic scholars through **Writing** and note-taking skills, **Inquiry**, **Collaboration**, **Organizational** strategies, and **Reading** (WICOR). The students have opportunities to practice the different strategies throughout the school day and across curricula. Anna Borba teaches students what it takes to be successful as a student and in life. AVID's mission is to close the achievement gap by preparing ALL students for college readiness and success in a global society. At Borba, we embrace the AVID mission, and are dedicated to ensuring that all students are prepared for Junior High, High School, College, and beyond. Our journey begins today.

### **“WICOR”:**

- **WRITING**

- Reflection tools
- Note-taking strategies
- Journal writing
- Writing to learn

- **INQUIRY**

- Levels of Thinking and Questioning
- Learning to ask question to reach deeper levels of learning
