 - Motion; Tony Flores, 2nd; Akin Mohammed, Approved 5-0
- Measure G Construction Update – Provided under separate cover, reported by Sam Sousa
 - Art Bennett asked if Legacy Academy currently has enough capacity for all the new housing under construction in the Legacy boundary. Greg Stachura replied that the school has the space now, but it will eventually be impacted.
 - Akim Mohammed commented on the traffic and parking issues around Walnut ES and asked the parking lot and drop off/pick up area was not expanded as part of the office relocation project. Sam Sousa replied that the school encourages parents to also use the side street drop off, but they don't always follow that direction. Additionally, the front drop off was reduced to one lane for a few weeks while some asphalt issues were addressed.
 - Tony Flores asked about the history of the bell in front of Borba ES. Staff replied that it dates to the 1950's or earlier and was a bell at one of the early Chino schools.

- Measure G Summary of Revenues and Expenditures – Provided under separate cover, reported by Beverly Beemer
 - Debra Dorst-Porada questioned the amounts of expenditures at the Ontario schools and if they increased learning. Art Bennett replied that the Ontario schools received a substantial amount of funding from Measure M, which was the District's previous bond measure. Greg Stachura clarified that Dickey ES was fully modernized and Liberty ES and Woodcrest JHS were built with Measure M funds in 2006, which was why less money was being spent from Measure G on those campuses. Beverly added that the bond has a primary focus on facilities, infrastructure, safety, and technology improvements, and each school has received substantial safety and technology improvements, and therefore, these improvements have indirectly increased learning.
 - Art Bennett added comments that the projects and improvements at the schools is based on the master plan, which is essentially comprised of a "wish list" from the schools. Greg Stachura added that yes, while the master plan was created in 2016, it was updated in 2024.
