

Hammer Questions

Answer the following questions while you are watching the video. Once the questions are answered correctly, you will be able to practice and improve your hammer/building skills.

1. What do you need to wear while using a hammer?
2. Name two different types of hammer that were talked about in the video?
3. What is the benefit of using a hammer with a wooden handle?
4. When would you use a hammer with a metal handle?
5. Which nail is bigger, an 8d nail or a 16d nail?
6. What kind of nail would you use if the nail was going to be used outside, like on the siding of a house?
7. A nail with a small head is called what?
8. Should you be sitting down while you are driving a nail?
9. Where should you be holding the hammer, towards the end of the handle or towards the head of the hammer?
10. If you take the hammer out of your cottage without permission, what will it be considered?
