

APHUG SUMMER TASKS

INSTRUCTOR: MR. LENTZ

COURSE: AP HUMAN GEOGRAPHY

Welcome to AP Human Geography here at Chino High School. My name is Mr. Lentz and I will be guiding you through this exciting course! As with all Advanced Placement classes, you will need to complete a few summer tasks to better prepare you in your journey in APHuG. If all of these are not completed by the start of the school year, I will take this as an indication of you not wanting to be in the course. If that is the case, you will be dropped from the AP program.

Summer Tasks

Task 1: Remind 101

- Please sign up for the Remind 101 posted on my school page. This will ensure we can communicate effectively if you have any questions during the summer. Please check my classroom website on the Chino High website for more details.

Task 2: Map Packets

- You should have received TWO map packets. If not, please print them out from the classroom website. The first one is filled with coloring/labeling maps. Please color and label these maps. The second packet is to prepare you for your first test in this class. Please use the coloring packet or internet to label all maps. The Friday we return from break, you will have your first test. I use this as an indicator of whether or not you can handle this class. A failing score may indicate the need for you to drop the class.

Task 3: Materials

- Watch the video I have uploaded on the materials you will need for this class. This will be checked/graded on the first Friday when we return. Please check my classroom website for the video.

Task 4: Mr. Sinn YouTube Channel

- Please browse the Mr. Sinn YouTube channel. He is a teacher from Minnesota that we will be using a lot in class, both to learn the materials and review. Hopefully this will make you excited for certain subjects we will cover in class.

Task 5: Rest

- Enjoy the rest of your summer and be prepared to work hard this coming school year!
