

When to Add

- more
- altogether
- total
- in all
- add
- join
- both

When to Subtract

- difference
- fewer
- how many more
- how much more
- left
- less
- flew away

Start

Jan found 8 shells at the beach.
Her mom took away 2 of them.
How many shells does she have
now?

You Did It!

Try Again

Tim caught 5 fish yesterday and 7 fish today. How many fish did he catch altogether?

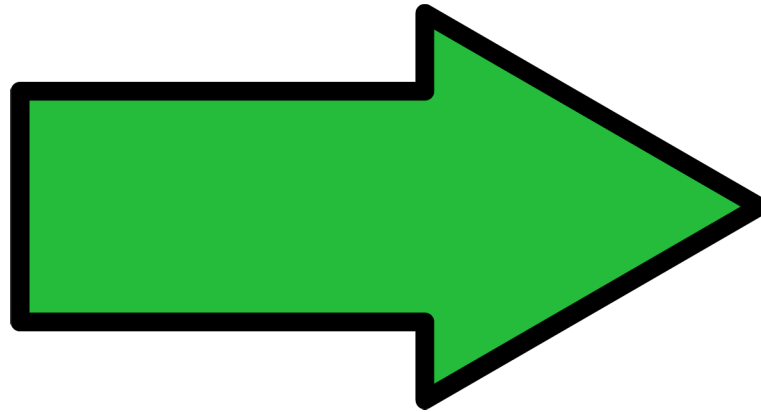

11

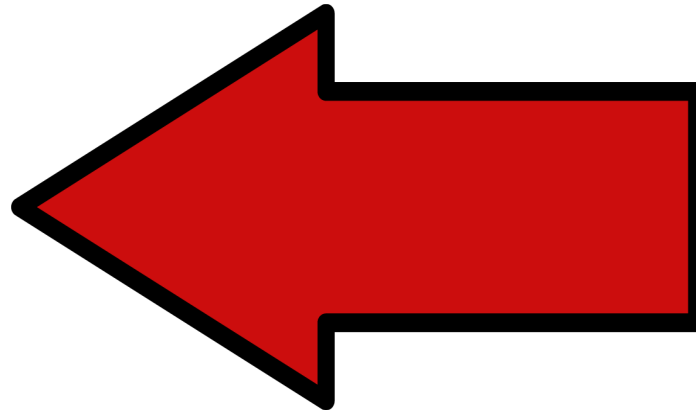

12

13

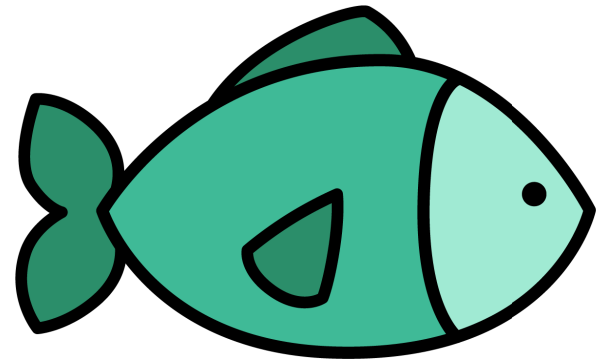

You're Awesome!

Almost...

9 fish are swimming. 8 more join them. How many fish are there in all?

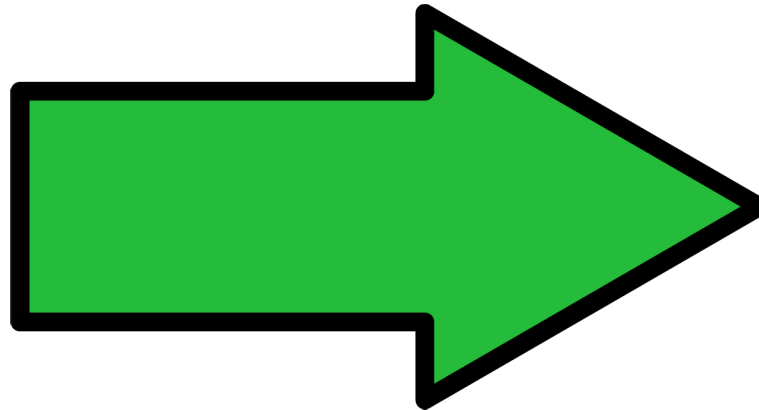

17

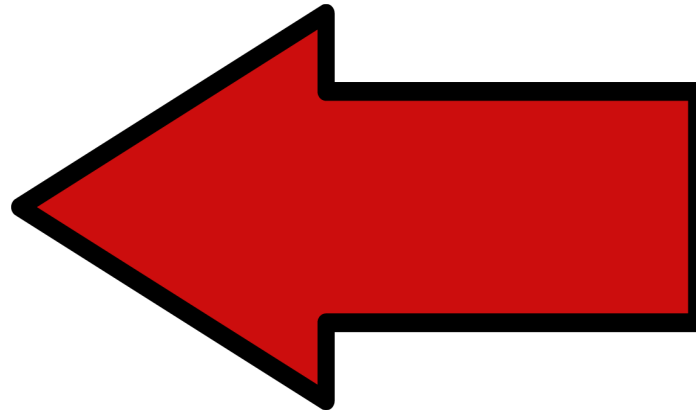

16

1

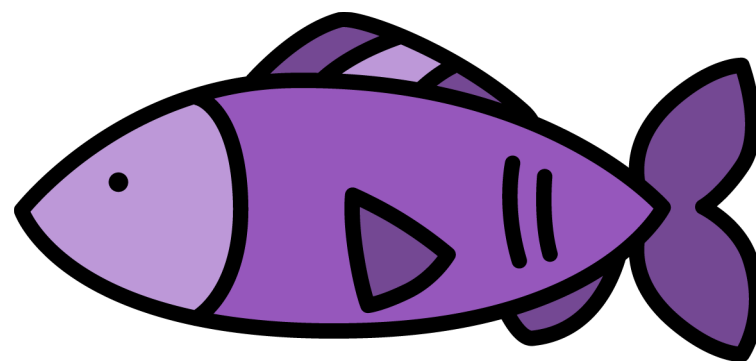

You Rock!

You Can Do It!

There are 5 baby fish swimming.
A shark comes by and eats 2 of
them. How many baby fish are
left?

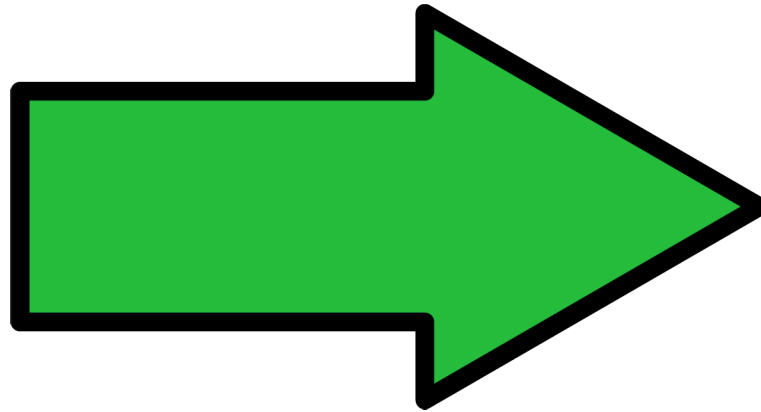

7

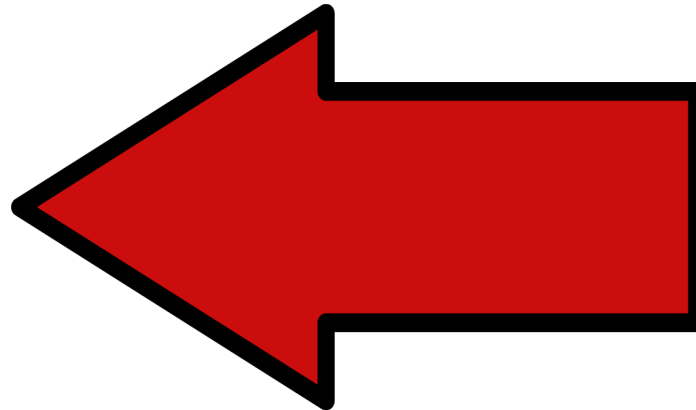

3

2

Super Job!

Oops!

I see 4 pink seashells and 3 gray seashells. How many seashells in all?

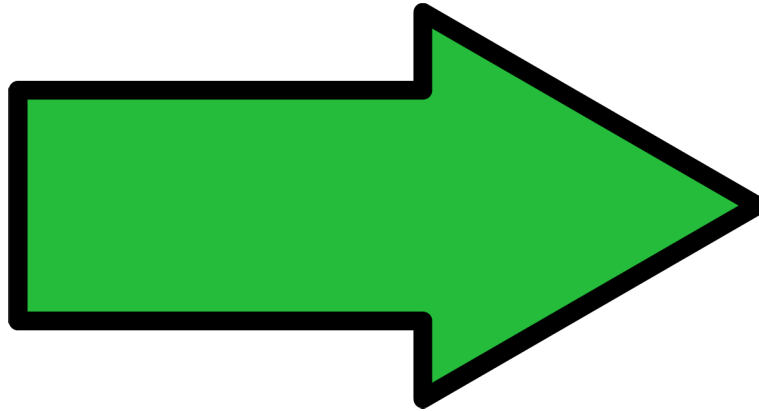

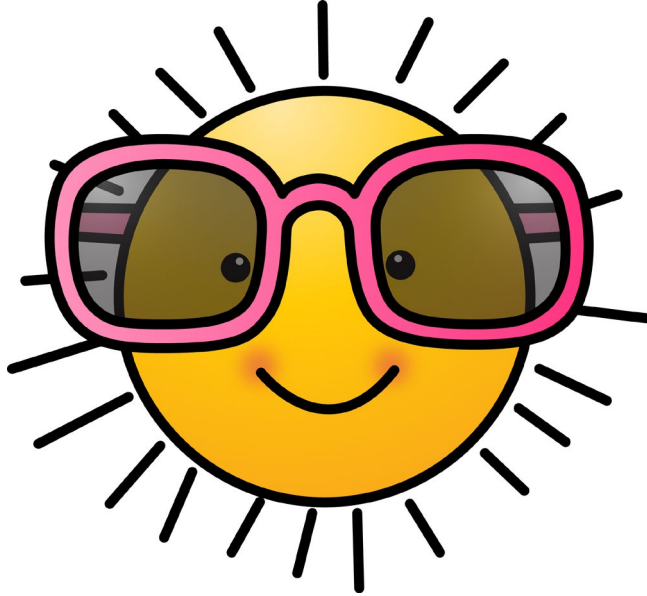

6

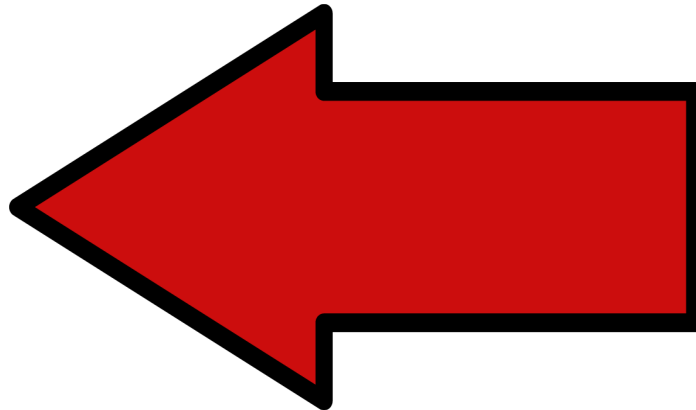

8

7

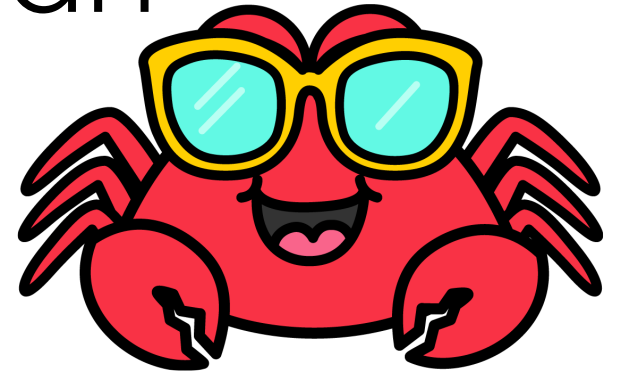

You Did It!

Try Again

Jim sees 5 crabs on the beach and Mary sees 10 crabs on the beach. How many more crabs does Mary see than Jim?

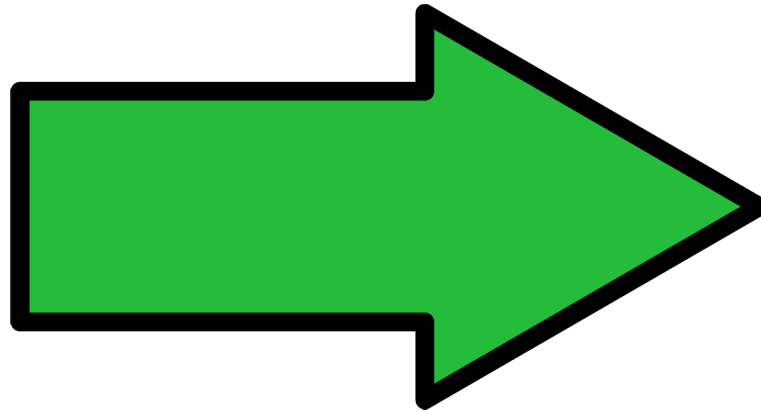

4

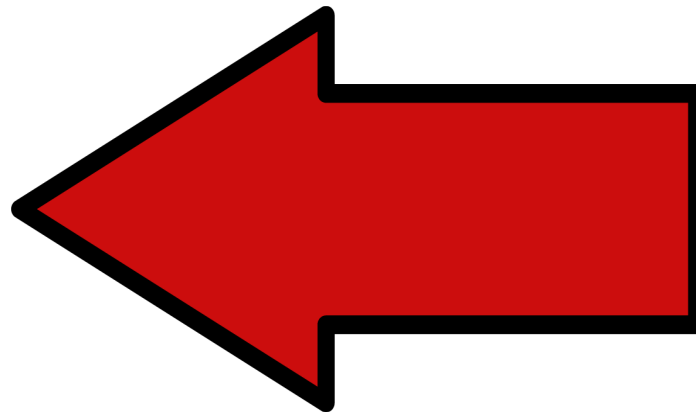

15

5

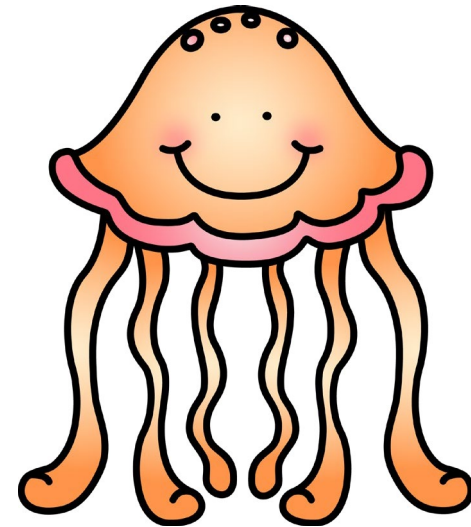

You're Awesome!

Almost...

7 jellyfish are floating in the sea.
3 more join them. How many
jellyfish in total?

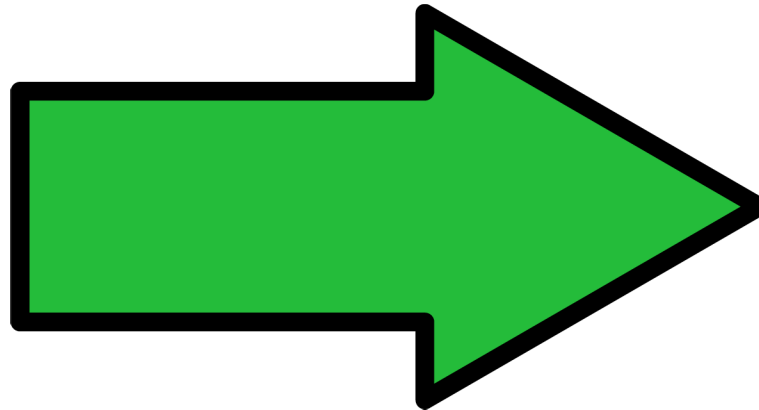

10

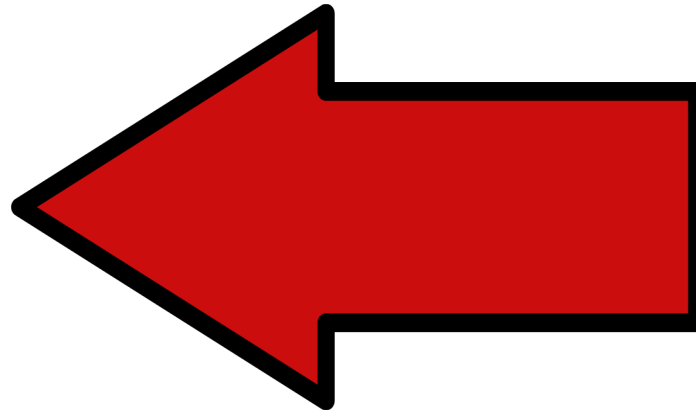

4

9

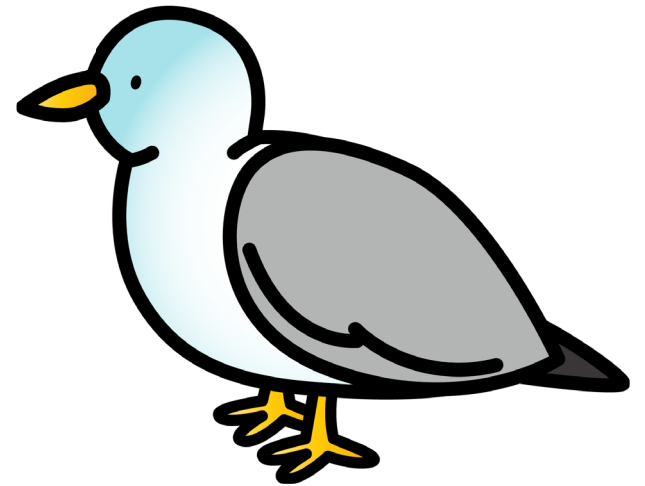

You Rock!

You Can Do It!

8 seagulls were sitting on the beach. 4 flew away. How many seagulls are left?
