Dear Buena Vista Parents and Guardians,

Our site has received its allotment of At-Home COVID-19 antigen test kits provided through the California Department of Public Health (CDPH). This one-time distribution provides an added layer of protection to mitigate an outbreak among students and staff amid the COVID-19 pandemic as our community returns from spring break. One kit, complete with two antigen COVID-19 tests, has been provided for each student enrolled at our school site. Parents and guardians are invited to use the kit at their discretion to screen for the presence of the COVID-19 virus in their student. Please be advised that testing is not mandatory. Test kits will be sent home with students on 3/23/2022. Students who are absent will receive their test kit when they return to their classroom. If you would like to decline receiving your student's optional test kit, please complete the optout form attached to this communication and return the completed form to the front office. As noted in Superintendent Enfield's letter, current isolation and group contact tracing guidelines remain in effect. Therefore, if a positive test result is received, please immediately notify our school administrative office. The District has confirmed that students isolating at home can return to campus after providing their At-Home COVID-19 antigen test result and have met isolation guidance provided by CDPH. The Positive COVID-19 Student Attestation Form to confirm test results is available on the district website under the FORMS tab on the COVID-19 UPDATES webpage. Completed forms can be returned to our front office upon your student's return to school. Thank you for remaining a collaborative partner in providing a safe and healthy environment for all our Falcons. I can't express how much your continued cooperation and support is appreciated!
