

UPDATE

Nº. 1 / January 2017

The passage of Measure G will provide a major investment in our schools, not just for the students currently attending but for generations to come. This investment will be visible in new or improved facilities which, in turn, will provide enhanced learning environments for our students and staff as we continue to work to raise test scores, increase graduation rates, and prepare students for college and career. Most of our schools were built decades ago and are in need of basic health and safety improvements. Measure G will renovate older buildings, increase student safety and provide technology to classrooms for improved student learning.

Get Informed, Get Involved Upcoming Opportunities

January 19 at 7:00 p.m. – Meeting of the Board of Education
