1. Cassandra Cota 3/17/16

2. VOID by Rhannon Lassiter

3. published in 2000

4. 664 pages

5. a. The story takes place in Europe, mostly in London and Italy.
   b. The protagonist is Raven.
   c. Raven wants to rescue her sister, Rachel (Revenge). She also wants to save all the Hexes of the world.
   d. When Raven was trying to find her sister, she was captured by Dr. Kolden, an evil scientist, who began torturing her. In response, she killed him and escaped his laboratory. Near the end of the book, Dr. Kolden's mind was still alive and he tried to kill her, so Raven had to battle against the darkness he caused in the net.
   e. Raven solves her problem by sacrificing herself to save the world.

6. 7/10 - Although this book began very slow and confusing, the last few chapters were very interesting. Also, the last chapter was touching and the book itself was quite original.

7. Question 1: Who is Revenge?
   Answer 1: Revenge is really Rachel. - Chapter 8, page 169.

   Question 2: What did the Countess mean when she said, “Even if you kill me, you will still be dead. I have nightmares to give you life”? (661). This is my favorite quote from this book because it twists the idea of pain and darkness. It shows how fear cannot exist without the person who is having the emotion of being afraid, and pain cannot exist without having anyone to give pain to.

   Question 3: Who was the first Hex to join Raven in the journey to save Hexes?
   Answer 3: The first Hex to join Raven was Ali. - Ch. 6, page 109.

8. Sometimes, in order to achieve what one wishes, one must make a sacrifice. 

   (7 continued) Question 2: What happened when Wraith, Ali, Luciel, and Avalon went to the Countess?
   Answer 2: The Countess told them that despite Raven being captured, she is still alive. The countess also brought in a group of Hexes named Jordan, Ocrain, Bryson, and Alaric. - Chapter 9, page 390-392.
