

New Classroom Addition

Marshall Elementary School

Architect:	WLC Architects	Contractor:	Meadows Construction
Construction Manager:	Bernards	Original Contract Amount:	\$2,898,260.00
Contract Start:	March 14, 2008 (NTP Date)	Change Orders in Process:	\$95,641.62
Contract Completion:	March 20, 2009	Change Order Percent:	3.30%

Scope: Relocation of existing Relocatable Classrooms including site utilities and asphalt walkways. Construction of a new 12,000 sf classroom building including restroom facilities.

Status: Meadows continued construction of the new Classroom Building with the following activities: The contract completion date was extended from March 6, 2009 to March 20, 2009 due to additional work for the sewer line installation. Main electrical panels were completed and the building was energized, classroom lights were installed, tack board panels were completed, t-bar ceilings completed, at the exterior walls plastering finish coat and removal of scaffolding started at west elevation.. Remaining work to be completed: Casework, setting plumbing fixtures in restrooms and classroom sinks, concrete walkways and landscaping. The connection to the City sewer line began, the City's inspector stopped the work because of clearance issues with existing water line in the street. The project is expected to be substantially completed by the middle of January.

1. Ceramic tile and plumbing finishes at Boy's Restroom.

2. New casework, T-bar, lighting and low voltage devices..

3. Working on main electrical panels and energized Bldg. K.

4. West Elev.: Plaster, finish coat was applied & scaffolding removed.
