

TEST AND QUIZ POLICIES

In first trimester: You will be given a study guide before tests that counts as a 5 point quiz. If you earn below 80%, you must retake the test and must complete a retake study guide. If you earn above an 80%, you may take an improvement quiz OR correct the incorrect questions on your test to raise your test score by 10%. Quiz scores are final.

In second trimester: Study guides become part of your notebook grade and will be stamped before the test. There is no credit for study guides completed after the test. If you earn below an 80%, you must retake the test. Retake scores are now capped at 80%. If you earn above an 80%, you may still correct the incorrect questions on your test OR take an improvement quiz to raise your test score by 10%. Quiz scores are final.

In third trimester: Study guides are still part of your notebook grade and will be stamped before the test. There is no credit for study guides completed after the test. If you earn below an 80%, you must retake the test. Retake scores are capped at 80%. Students who earn above 80% or above keep their grade. Quiz scores are final.

Below is the template for test corrections. I usually have a supply in my class. but if you forget to take one, you can use the template to make your own correction sheet.
