

FILL IN YOUR DOODLE NOTES USING KAMI

Once you have been assigned your Digital Doodle Notes as a Kami PDF in Google Classroom, click on it to open it in Kami within your browser.

Now, you will be able to type notes and add other markups to complete the notes. Below are some tools you can use to complete your notes:

TEXT

Add text boxes. Change the fonts, the font size, and try adding bold, italic, and underlining to the words.

HIGHLIGHTING

Click the Markup tool and the Box Highlighter to highlight various text on your notes in the color of your choice.

ADD SHAPES AND LINES

Click the Shapes tool to add various shapes and lines. Use the Select Text Arrow tool to highlight a shape or line and change its color, fill, length, and to add arrows.

ADD RELEVANT IMAGES

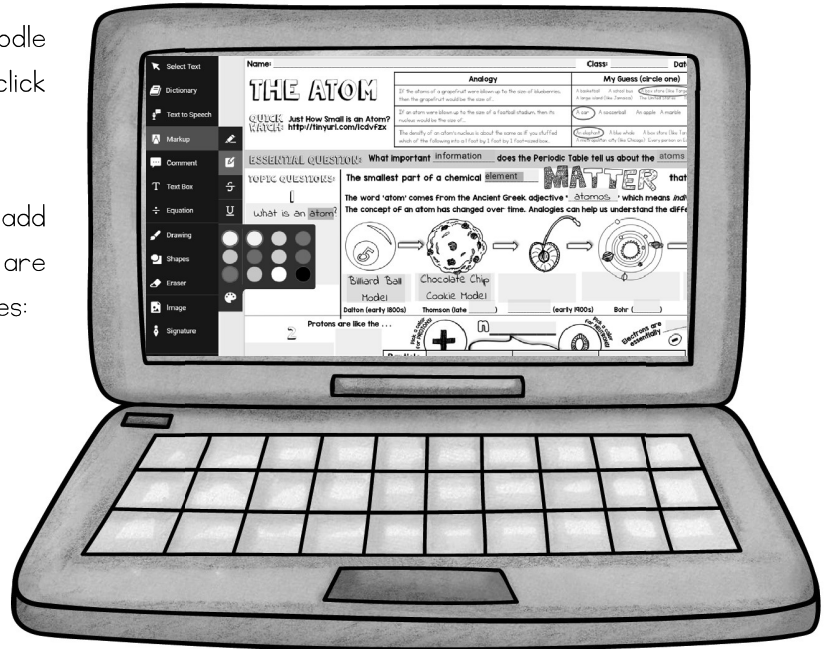

Click the Images tool to select an image from the computer, from Google Drive, or directly from Google to add to the notes.

ADD VOICE COMMENTARY

Click the Comment then Voice Comment tool to make verbal notes to elaborate on a topic or to explain something in your own words.

TURN IN

When you have finished completing your notes, you can simply select the Turn In button at the top of the Kami interface to submit this via Google Classroom back to your teacher.

ERASER TOOL

Click the Eraser tool to erase any drawings or shapes that you made and would like to remove.

ADD LINKS

Link a helpful video clip or link to another relevant document by clicking the Link icon in the Text Box toolbar.

EMOJIS

Add Emojis to a text box to react to something. Find this in the Text Box toolbar.
